Project 4

- MongoDB Compass connect string to your Atlas server
  - mongodb+srv://ShabaniBashar:Shabani01@cluster0.wib3tg3.mongodb.net/test
- Explanation of additional features, if any.
  - I added no additional features, other than what was required of me.
- Explanation of status, stopping point, and issues if incomplete.
  - Project 4 status is complete.
- Discuss the easy and challenging parts of the assignment. How did you overcome all or some of the challenges?
  - The project as a whole was pretty easy. Most of it was just following along with the module videos.
